# WAITLISTS

Our site has a waitlist feature, and you can add yourself to a waitlist for any mission or shift that has met its volunteer capacity.

If a mission or shift is full, you will see the **Waitlist** button instead of the usual **Respond** button.

For shifts, the **Waitlist** button appears to the right of the shift.

Click the **Waitlist** button to add yourself to the waitlist. You will also receive a notification confirming that you have been waitlisted, and the button will now read **Added to Waitlist**. The Notification is **NOT A DEPLOYMENT NOTICE**. Please do no deploy unless you receive a Deployment Notification for the mission.

Note: To remove yourself from the waitlist, click **Added to Waitlist**, and then click **Yes** to confirm. If a spot opens, you and all other waitlisted volunteers for the need or shift will be notified by email. Signup for an open spot is done on a first-come, first-served basis.

We have so many missions, we would prefer that you sign up for a mission that needs people rather than one already filled. The odds are that your volunteer time will be wasted on the waitlist.
